People are frustrated, even angry, at the impotence of our political system today. It seems broken, but the truth is that the Religious Right has infiltrated the political system and are creating this stalemate with very little regard for anything outside their agenda. They have a specific plan for this nation, and political compromise is not part of that plan.

This work is a timely exposé on the Religious Right that gives insight into the network's blueprint for America. This book covers everything from Christian Reconstructionists, Dominionists, Quiverfull, Seven Mountains Mandate, to the war on women and attacks on public schools. You will find out who the leaders of the movement are and their tactics. It explains and documents a stealthy hijacking of the government, courts, schools, even our history, and popular culture. It explains and documents a stealthy hijacking of the government, courts, schools, even our history, and popular culture. This book includes interviews, research, and bibliography. Presentation is organized and systematic while in plain English. It shares how to get involved and make a difference in your community to protect your rights and preserve democracy.

The author shares why they believe they are mandated to have dominion over every aspect of life in the United States, and how their vision for America is not a democracy at all.

About the Author

A.F. Alexander was born and raised in Colorado and witnessed first hand the relocation of Focus on the Family, and its impact on the city. She was one of those far right conservative Christians. She even completed a Bible Institute program that ingrained the conservative worldview into her being. She left the movement, after a few decades of ardent involvement, over the position that women should stay with abusive husbands. She graduated from a church sponsored Bible Institute, worked as a part time church secretary in her spare time, was a Sunday School teacher for approximately eight years, and wrote for a monthly church publication. She holds a BSBA degree, as well as a Bachelor of Arts in Sacred Theology. She has worked in Fortune 500 companies her entire adult life. This was the book that had to be written and would not be quieted.
